NON-FINAL OFFICE ACTION

***ex parte* Reexamination**

This is an *ex parte* reexamination of U.S. Patent Number: 7,469,381. This action addresses patent claims 1-20 for which it has been determined in the Order Granting *ex parte* Reexamination mailed 7-25-2012 that a substantial new question of patentability was raised in the Request for *ex parte* reexamination filed 5-23-2012.

Availability of References as Prior Art:

Claims 1-20 are reexamined on the basis of the following references:

Lira – PCT Publication no. WO 03/081458 by Luigi Lira

Ording '975 - U.S. Patent No. 7,786,975 issued to Ording et al.

Van Den Hoven – PCT Publication no. WO 01/029702 by Elise A. W. H. Van Den

Hoven

Rejections:

The following rejections are utilized by the Examiner below, referencing the proposed prior art listed on pages 23-85 of the Request:

Rejection A: Claims 1-6, 8-12, 16, 19, and 20 as being anticipated by Lira

Rejection B: Claims 7 and 13-15 as being obvious over Lira

Rejection D: Claims 1-5, 7-13, and 15-20 as being anticipated by Ording

REJECTIONS OVER LIRA

With respect to the following rejections over Lira, the "edge of the electronic document" has been shown to be capable of being construed as an internal edge, as opposed to being limited to the outer edge of a document as a whole. The Courts agree with the Examiner's independently formulated interpretation, as can be seen in the April 4, 2012 Order Construing Disputed Claim Terms of the '381 Patent issued by the Federal District Court for the Northern District of California in *Apple Inc. v. Samsung Elecs. Co.*, 5:11-CV-01846-LHK, ECF No. 849 (Exhibit 7), where it was decided that "an electronic document can be embedded in another electronic document, and there for the "edge of an electronic document" is not limited to "external" edges." Under Lira, whole documents (webpages) further contain individual images and column based text portions (see page 11, line 27 through column 12, line 2 and in figure 8A), that are internal to the webpage as a whole, where bounce back is effected responsive to the window being misaligned with the column based sub-document content (see page 15, lines 18-31). Furthermore, under Lira, the column in which the display window is located over could be an outside column where when the window is moved away from the document and over an outside boundary, the bounce back could be responsive to the document as a whole, moving from the whitespace on the top, bottom, and sides of the webpage back over the webpage.

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-6, 8-12, 16, 19, and 20 are rejected under 35 U.S.C. 102(b) as being anticipated by Lira.

REJECTION B:

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Art Unit: 3992

Claims 7 and 13-15 are rejected under 35 U.S.C. 103(a) as being unpatentable over Lira.

The following claim mappings in the Request are incorporated by reference:

Claims 7 (Request Pages 43-44, Exhibit 6, Part B, Pages 1-6)

Claims 13-15 (Request Pages 45-47, Exhibit 6, Part B, Pages 1-2, 6-9)

Litigation Reminder

The patent Owner is reminded of the continuing responsibility under 37 CFR 1.565(a) to apprise the Office of any litigation activity, or other prior or concurrent proceeding, involving Patent Number: 7,469,381 throughout the course of this reexamination proceeding. The third part requester is also reminded of the ability to similarly apprise the Office of any such activity or proceeding throughout the course of this reexamination proceeding. See MPEP §§ 2207, 2282 and 2286.

Response to this Action

In order to ensure full consideration of any amendments, affidavits, or declarations, or other document as evidence of patentability, such documents must be submitted in response to this Office Action. Submissions after the next Office Action, which is intended to be a Final Action, will be governed by the requirements of 37 CFR 1.116, after final rejection and 37 CFR 41.33 after appeal, which will be strictly enforced.

Art Unit: 3992

Conclusion

Extensions of time under 37 CFR 1.136(a) do not apply in reexamination proceedings. The provisions of 37 CFR 1.136 apply only to "an applicant" and not to parties in a reexamination proceeding. Further, in 35 U.S.C. 305 and in 37 CFR 1.550(a), it is required that reexamination proceedings "will be conducted with special dispatch within the Office."

The patent owner is reminded of the continuing responsibility under 37 CFR 1.565(a) to apprise the Office of any litigation activity, or other prior or concurrent proceeding, involving this patent throughout the course of this reexamination proceeding. The requester is also reminded of the ability to similarly appraise the Office of any such activity or proceeding throughout the course of this reexamination proceeding. See MPEP § § 2207, 2282, and 2286.
