Set play from Mark Few's Gonzaga University Bulldogs

Few's motion offense is fantastic and he does a very good job utilizing the varied talents of his personnel. The Zags are on TV this Saturday against Duke and I recommend that any coach looking to add something new to their motion offense to tune in.

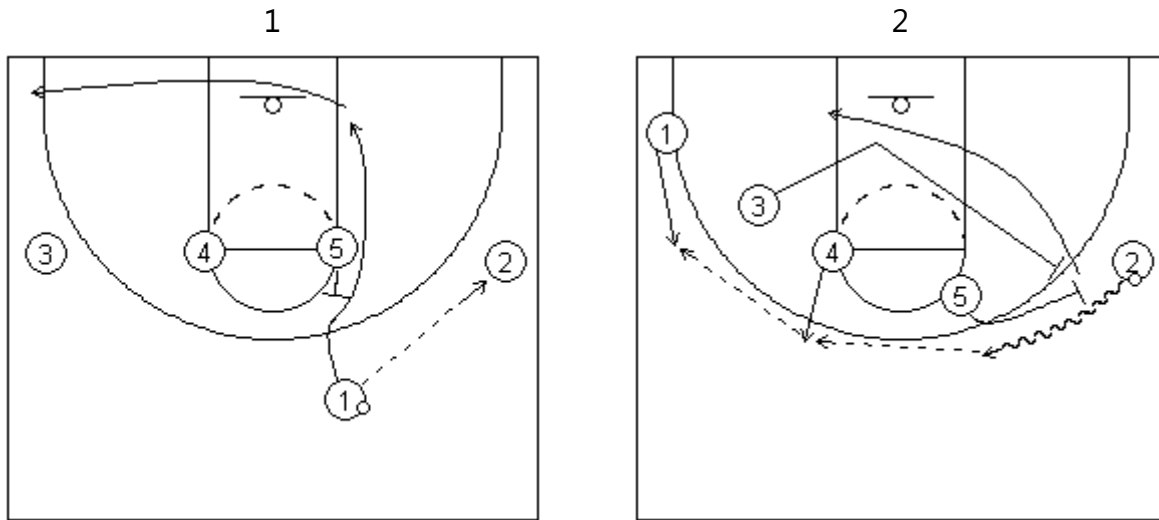

Diagram 1: Starting in 1-4 high set, 1 throws to the strongside wing before making a UCLA set off of 5's smash screen. 1 empties out if he isn't open for pass (no postup)

Diagram 2: After setting the screen for 1, 5 turns to set a wing ball screen for 2. 2 comes off the ball screen and throws to 4 stepping out. 4 catches and quickly swings the ball to 1 (Few stresses the importance of this first catch off the ball screen. This player CANNOT play with the ball, it must be shot or quickly passed). 3 has sprinted from the opposite wing and back screens x5 to run to the left block after screening.

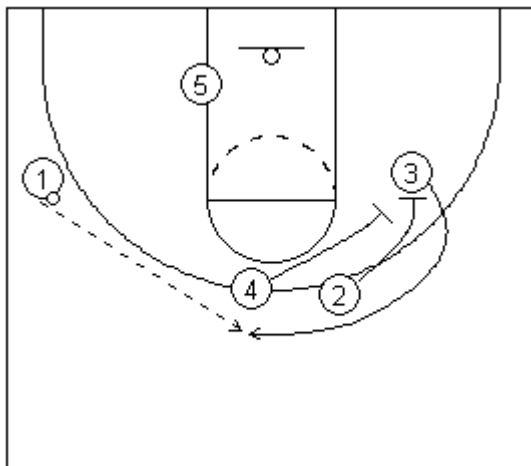

Diagram 3: 1 looks inside to 5 and passes it to him if open. 3 comes off a double stagger set by 2 and 4 for an open three.
